

PRIA IN TOUCH

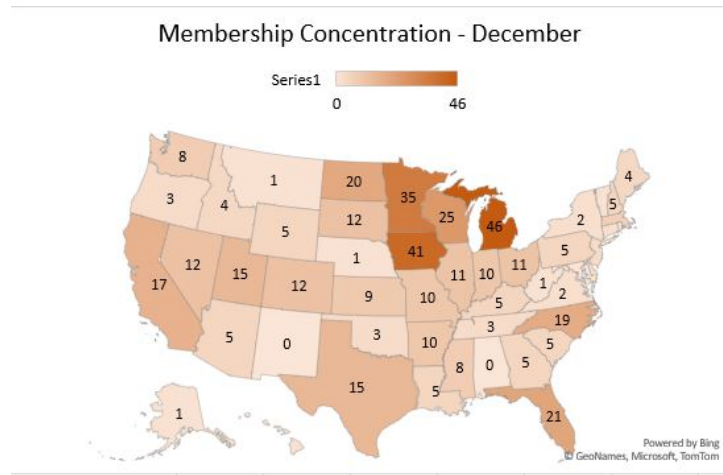

January 26, 2023

Membership Battle is On

Everyone loves a good competition and PRIA members certainly fall into that category.

Recently PRIA's membership committee has been undertaking an internal competition to see who can recruit the most members from their states. And there is a heated battle between 1st and 2nd with Michigan currently edging out Iowa by five members. Minnesota is not too far behind.

If you are interested in joining in on this spirited competition, sign-up today to be a state recruiter. There are currently 11 state recruiters and would love to add your state to the list. [Click here](#) to register your state.

Committee Highlights

During the January 18 PRIA Board of Directors meeting, two committees highlighted their current work for 2022-2023.

Standards and Best Practices

The S&BP Committee oversees six current work groups, and those groups were highlighted during the recent meeting. Blockchain is just getting off the ground, while Business Continuity should be reviewing their draft paper soon. GIS is reviewing their

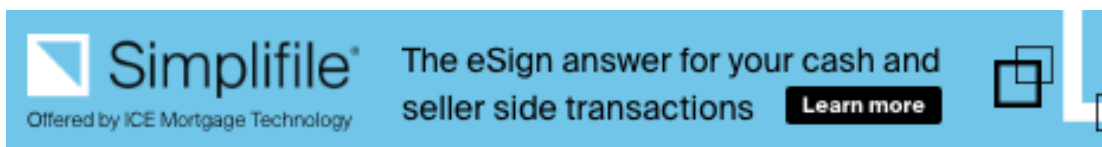

FAQs. eCertification is making good progress on its paper and Indexing just published their latest paper, *Indexing Best Practices*. The Property Recording Alert Systems Work Group is off to an early start and making good progress.

Governance

Financial Oversight has received the year-end investment compilation and reported on the expected decrease in investments due to the uncertainty in the economy. For PRIA, the Board views our investments as a long-term strategy and will continue to monitor the monthly reports.

Bylaws are in need of review for 2022-2023 and the Governance committee would like to solicit additional volunteers for the committee. If you are interested in signing up for Governance, or any of our other committees, please [click here](#).

Seasoned Member Spotlight

Steve McDonald

Somerled Consultancy Services, LLC

When did you join PRIA?

When we organized it as a Joint Task Force

What has been your best PRIA experience?

Being involved in industry changing technologies and standards.

What have you gained by being a PRIA member?

Great friendships and a chance to lead the industry.

PRIA Website Matters – eRecording

For a number of years, PRIA has maintained a list of jurisdictions that have implemented eRecording technology. The list includes jurisdictions whose implementations have been confirmed by PRIA. The names of the eRecording jurisdictions are available to the public, while PRIA members have access to a more detailed list, which includes contact information for the jurisdictions, as well as the individual jurisdiction’s technology vendor(s). The PRIA administrative staff works with multiple resources to find and report new eRecording-enabled jurisdictions.

To access the members only information, [click here](#) and click on the tile for eRecording.

Speaking of eRecording, PRIA, with technology support from CSC, will soon launch the Fifth Document Volume Survey. All recorders who were eRecording during all of 2022 will receive a survey requesting data for that period.
