

The Key to Document Recording

FOR IMMEDIATE RELEASE

ePN Adds 90 Jurisdictions to eRecording Network in Q1 2022

April 11, 2022 – eRecording Partners Network (ePN) has partnered with 90 additional counties in the first quarter of 2022 including all counties in the state of Georgia as well as counties in the following states:

Kentucky
Indiana
Michigan
New York
North Dakota
Tennessee
West Virginia

“We are excited these counties have chosen to work with ePN. We believe our industry expertise and customer support are second to none. As the focus on our county network continues to increase, we look forward to connecting with many more counties in the near future,” Jerry Lewallen, Chief Strategy Officer of ePN said.

ePN is one of the fastest growing national eRecording service providers. As recorders nationwide are making the necessary arrangements to implement eRecording in their offices, the ePN Team works closely with them to integrate their electronic recording technology with the jurisdictions’ land record systems. ePN is focused on building and maintaining a firm foundation of excellent service to counties and submitters.
